Important Product Notes

Where the risk of entanglement and/or strangulation is a concern, all Sanipull ribbons are available with anti-ligature patient safety breakaway protection designed to tear apart at a weak zone at 27 +/- 2 lbs force. (ribbon is factory modified with a series of 5/16" diameter holes punched every 6 - 7 inches along its length). This health and safety enhanced pull, by the nature of this modification, are not as durable as our regular Sanipull ribbon pulls and therefore our warranty only extends to the attachment or spring clip hardware. Please note: Wilshire Works Inc. or its distributors will not be held liable for death or damages directly or indirectly involving any Sanipull product. This modification can be ordered for an additional \$1.00 per pull. When ordering use the PER (perforation) suffix after the product code. ie. SLTG6 DCSS PER. Anti-ligature ribbons require an additional 1 week added to our normal 3-week shipping window. We make every effort to ship within a week for regular product orders.

It is recommended that an extra 2 pulls out of every 100 be allocated for spares. (especially for anti-ligature pulls) Please note that Sanipull can usually be repaired. Refer to our Sanipull Consumables Price List for parts. To maintain the cleanliness of spare Sanipulls, they are available individually packaged in clear poly zipper bags with attachment hardware and installation instructions for an additional \$1.00 per pull or 10 pulls for \$7.00 plus the cost of Sanipulls.

Sanipulls are packaged in lots of 10 coiled pulls per bag or 50 coiled pulls per case. An additional \$5 handling fee normally applies if a bag lot must be broken.

Wilshire Works is able to accommodate custom orders to meet special requirements for a reasonable additional fee. We are also able to offer hot stamped custom logos or text branding for orders over 300 pulls. Additional stamp and set up fees apply. Contact us for details.

N.B. As we are continually trying to improve our products, Wilshire Works Inc. reserves the right to make design or material changes. Visit www.Sanipull.com for information on consumables.
