#### Important Product Notes

For complete installation instructions or support information visit [www.Sanipull.com](http://www.Sanipull.com) or call 1-800-SANIPULL

<sup>1</sup>SuperSanipull clamshell nurse call adapters are designed to secure the ribbon at minimum holding force of 21 lbs (9.5 kg) to protect fixtures from over-force pull damage.

<sup>2</sup>Sanipull anti-ligature ribbon (symbol, PER) option helps mitigate the risk of entanglement or strangulation with a proprietary safety breakaway designed to tear apart at 29 +/- 2 lbs (13 +/- 1 kg) force at 74 °F (23 °C). Anti-ligature ribbon is factory modified with nominal 5/16" diameter holes punched every 6-7 inches along its length. Because of the nature of this ribbon modification, warranty extends only to the attachment fittings. **Note:** Wilshire Works or its distributors will not be held liable for death or damages directly or indirectly involving any Sanipull product.

Standard Sanipull ribbon colours: blue (B) for over bed light pulls and red (R) for nurse call pulls.

Sanipull is a durable solution that can be repaired by replacing damaged components. Wilshire Works offers a 100% end user satisfaction guarantee and a lifetime replacement warranty on SuperSanipull fittings if correctly installed.

Wilshire Works continually works to improve its products and therefore reserves the right to make design or material changes.
